SUMMARY

A graduated BSc in Computer Engineering, Ruppin Academic Center. Looking for full-time positions as a: FullStack, Backend Engineer/Developer, Embedded Software Developer. Self-learner: two Python courses graduate (DevopsExperts and Brainnest). Eager to learn new and challenging concepts about Software Development. I have built up several interesting websites.

PROJECTS

- **Portfolio** – FullStack web app Django-based, JavaScript, HTML, and CSS. All the DB models are registered to Django-Admin. The website shows all my projects. For each project, there is an overview video that shows the project.
- **Notes App** – FullStack web app Flask-based and HTML. Notes manager website which has user-authentication, Flask-Forms, and Database with SQLite (SQL-Alchemy).
- **Vehicles Market** – FullStack web app Flask-based, HTML, and CSS. The final project of the Server Side course (Grade – 100). Main features: user-authentication system, a heat map of vehicle sales on Israel map (geopandas), and user profile (all CRUD operations – contain the vehicles owned by the user).

EDUCATION

2019 - Present: Computer Engineering (B.Sc), Ruppin-Academic-Center.

- **Two Python Courses (Devops Experts & Brainnest)** – Data Structures, Assertions/Exceptions, Files manipulation, OOP, Django Framework, Deploy with AWS. Projects: Portfolio, Chat rooms, and coding projects.
 - **Software:** C, C++, C#, Python, Operating Systems (Linux), Software Engineering (marked 95), Server Side Flask (marked 99).
 - **Hackathons:** 2 FPGA hackathons RISC-V processor for AI computational accelerator.
- 2008-2011:** Hadasim high school. Full Matriculation, Computation, and Mathematics.

ARMY SERVICE

2012-2018: Captain, Nahal brigade, IDF

- **Combat officer positions** – In charge of combat units from 40 to 130 soldiers. Improved my abilities: of talking to the audience, and dealing with extremely stressful situations.
- **Staff position** – Management skills, big projects management.

WORK EXPERIENCE

2019- Present: Math private teacher for high school 5 units math students, and first-year academic students. In this job, I improved my ability to initiate, teach and guide, even fresh materials that I learned in my degree.
